SUBJECT: SUPPLEMENTAL INFORMATION TO WISCONSIN'S ONE - HOUR OZONE
STANDARD ATTAINMENT STATE IMPLEMENTATION PLAN REGARDING REASONABLY
AVAILABLE CONTROL MEASURES (RACM) ANALYSIS

Dear Mr. Ullrich:

The Wisconsin Department of Natural Resources is providing additional information regarding Reasonably Available Control Measures (RACM) analysis to Phase III Ozone Attainment SIP that was submitted on December 22, 2000. We believe that the attached materials clearly indicate that our SIP meets the requirements of Subsection 172 (c) regarding emission reduction progress and attainment.

Our RACM analysis attached, concludes that the evaluated additional control programs are not economically reasonable and would not advance the ozone attainment date of 2007.

If you have any questions or comments regarding this supplement to the SIP, please contact Larry Bruss of my staff at (608) 267-7503.

Sincerely,

Lloyd L. Eagan, Director
Bureau of Air Management
